Mercedes-Benz Finance and *Insurance – Turning dreams into reality

Contract Purchase (Choices)

Choices is an innovative finance plan that puts you in the driver's seat by giving you the luxury of choice. With this unique finance plan, you get to choose an option that suits you best at the end of the agreement period.

You can:

- ▶ Make the final payment and take ownership of the vehicle;
- ▶ Trade the vehicle in for a new model;
- ▶ Extend the agreement period by spreading the cost of the final payment; or
- ▶ Simply return the vehicle with no further obligation.

Instalment Agreement

The Instalment Agreement is the traditional way of financing your vehicle of choice. There are no surprises, only predictable and regular monthly instalments. What you get out of the deal is a finance package where repayments are payable in regular monthly instalments over an agreed period.

Instalment Agreement with Balloon

Instalment Agreement with Balloon is a simple and effective way for acquir-

ing a vehicle with lower monthly instalments, and a final payment that transfers ownership to you. A final payment is negotiated at the outset of the agreement, and the remaining cost, plus interest charges, is then repayable in regular or monthly repayments over an agreed period. When the final payment is made, ownership is transferred to the customer.

Private Rental

In an effort to continuously lead ambition, Private Rental is designed for the private individual, structured to meet specific driving and financing needs, while still ensuring you drive the best for less and more often. Private Rental is a unique product that makes driving a Mercedes-Benz more persuasive than ever before.

Private Rental offers you the choice of three packages as indicated below:

Product Option	Low	Standard	Standard Plus
Maximum Annual Kilometre	18,000 kilometres p.a. or 1,500 kilometres p.m.	25,200 kilometres p.a. or 2,100 kilometres p.m.	Over 25,200 kilometres (Customer to determine upfront their annual kilometres)

Benefits of Private Rental:

- ▶ Able to drive a new Mercedes-Benz more often due to shorter rental periods.
- ▶ Repayments are more affordable as you pay for usage only and NOT ownership.
- ▶ You are always assured of vehicle maintenance cover.
- ▶ Eliminates the burden of vehicle disposal at the end of the contract term.
- ▶ Mileage can be customised to suit your needs.

FlexiFix: Attaining Flexibility with Risk-Free Mobility

In the move to manage rising expenses and stretch budgets, customers often choose to use fixed rate financing as a means to curb against anticipated interest rate hikes. This finance product allows you to have control over your monthly vehicle repayments by minimising the immediate impact of interest rate increases, whilst the benefit of rate decreases will still be enjoyed when they occur. FlexiFix enables you to budget better by allowing you to have fixed payments until the penultimate payment. The last payment absorbs all increases, or decreases that may occur with interest rates.

Benefits of FlexiFix

- ▶ Fixed capped monthly repayments (until the penultimate instalment).
- ▶ Better budgeting.
- ▶ Less concern about the immediate impact of interest rate increases.
- ▶ Provides certainty and payment guarantee to customers.
- ▶ Should the customer wish to re-finance the last payment, Mercedes-Benz Financial Services can assist by refinancing this amount on a new agreement for an agreed term.
- ▶ Unlike fixed rate contracts, FlexiFix enables the customer to benefit from interest rate decreases. Here, an automatic decrease in the last payment would take place. Once again, the fixed monthly payments would be unaffected.
